Hans Olaf Gottfridsson : The Beatles from Cavern to Star-Club before purchasing it in order to gage whether or not it would be worth my time, and all praised The Beatles from Cavern to Star-Club:

1 of 1 people found the following review helpful. Comparable to Bruce Spizer's depth of detail, but about Hamburg and Hamburg recordings --By JNagaryaOn one hand, an almost overwhelming amount of useful information. (Want label variations? this has that and then some).On the other, it needs a professional editing, particularly as concerns word-breaks. And the vertical half-page of text, half-page blank, makes reading difficult. Open the text up -- use the full page. And enlarge the font a point or two.I would still not want to omit this from my Music/Beatles library.0 of 0 people found the following review helpful. Five StarsBy CustomerPerfect transaction. Recommended1 of 1 people found the following review helpful. Great Book, Great FindBy gringo557I searched long and hard for this book and it

was worth it. Lots and lots of details of their 1960-1962 period and in handsomely bound form.

Book by Gottfridsson, Hans Olaf
