elvisthebeagleHal Leonard's songbook series Beatles books have the most accurate guitar books I have ever found. Has to be the "songbook series". Just because it says " Hal Leonard" does not mean it is any good. The Easy Guitar series were for me, the worst translations. The Songbook series seems to be studio transcriptions but they are small books. To make them work "stay open" take the to a Office Max and for a few dollars they will remove the binding and replace with a spiral binding.1 of 1 people found the following review helpful. Great for Figuring Out What the Words Are!By Mary C. McMurdoI got this so I can sing along with the songs, and to make out the words that I so often miss because I didn't learn them with a British accent. I can't tell you how good the guitar chords are, because I don't play the guitar, but it's really nice to have the lyrics at hand.0 of 0 people found the following review helpful. Kindle fire version flawed!By Neil GubermanBought this for my kindle fire and the display is flawed. The printing is too small and if you try to enlarge it only enlarges the page you're on. Also, some of the lyrics/chords are cropped off the right margin as the full text does not fit on the page. Very unhappy with this purchase.
