The typesetting (which is large and, unusually, centered throughout), the gorgeous photographs, the colours, it's all very lush and evocative. Great coffee table book!That being said, the story is very engaging and creates a charming and compelling snapshot of a brief but heady time in an engaging era. The intimate portraits of the Beatles, both photographic and in writing, are sure to please Beatles fans and maybe the casually curious, as well.Unfortunately, the story is fairly short. More of an essay than anything else, but given the story being told, it could only be so long. The author writes about a specific time and place and doesn't pad it with a lot of extraneous things, and it is what it is.This is a book that's sure to delight Beatles fans and also those

who are interested in the times, trends, and mood of the mid-late sixties. I found the book captivating, and I'm glad to add it to my collection of great coffee table books and books about the Beatles. 4 of 4 people found the following review helpful. A MUST For Any Beatle Fan!!!!By JOSEPH G.I went to Rishikesh, India in the fall of 2000. I realized why George was so amazed of this northern India town where the Ganges turns down from The Himalayan Mtns. I was blessed to have visited such a beautiful place, as my 94 year old grandfather from Delhi and my dad (Who's originally from northern India) took me to some amazing spots in Rishikesh. I felt so free. I felt the 'magic' The Beatles experienced. This book illustrates the journey of the fab four's 1967-68 visit for 'relaxation meditation' and the outcome (Many of the songs recorded for "The White Album" were written while hanging and meditating at Maharishi Mahesh Yogi's ashram) The pictures (taken by the author of this book) are large and will grab you - This book is for The Beatle fan in you or someone you know. In February 1968 The Beatles came to Rishikesh to study transcendental Meditation with Maharishi Mahesh Yogi. During this time they wrote most of the songs that were later to become the White Album. No professional photographers were allowed inside the Ashram but the group had no objections to Saltzman freely snapping pictures during their time together. The pictures are reproduced in this lavishly designed book along with Saltzman's account of his experiences with the band.

About the AuthorPaul Saltzman is a Canadian Film Producer and Director, he has won two Emmy awards and happened to be staying in the Maharishi's Academy in Rishikesh at the same time as the Beatles.
