#3900029 in Books 1994-01 Original language: English PDF # 1 1.50 #File Name: 0964007908 Over 600 meticulously detailed listings of Beatles group and solo LPs, EPs, and singles issued in Japan from 1962-1994. U. S. pricing for each listing. Over 450 high quality images of Japanese LPs, EPs, singles, and box sets.

Most images are direct digital scans of items from the author's own collection and include many rare items. Valuable collector's information on label variations, colored vinyl, picture disks, obis, promotional issues, test pressings, and lots of little-known facts about the Japanese pressings. Checklists to help you organize and keep track of your collection. | File size: 57.Mb

Jason Anjoorian : The Beatles Japanese Record Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Beatles Japanese Record Guide:

0 of 0 people found the following review helpful. A Great Resource To Building Your Japanese Beatle's Collection By BeatleEd An important companion to building your Japanese Beatle's record collection. It contains every Japanese record ever made including value, rarity and includes photos and great descriptions. The next time you are looking at a Japanese Beatle Album on Ebay, grab your book and make sure you don't overpay in auctions or buy it now situations.

A Fantastic resource. I would have graded 5 star if the pictures were in color.0 of 0 people found the following review helpful. Five StarsBy KEN GAWLER JR.great reference book a must for collectors3 of 3 people found the following review helpful. An absolute "Must-Have" if you collect Beatles recordsBy A CustomerIf you're like me and you've been collecting foreign Beatles records for quite some time, you know how hard it is to find English-language collector's guides for foreign pressings. This guide is really well-written and easy to use. It covers every official Beatles record ever released on vinyl in Japan through the mid-90s, and has photos of every single one. [Japanese pressings are considered the highest quality of all vinyl issues]. One of the neatest features is that it also contains a scarcity index for each item - which is really helpful to collectors. All values are in US dollars and it contains a handy checklist for collectors. I've snagged some great bargains using this price guide. Definitely worth it's price.

The Beatles Japanese Record Guide is the only book anywhere that tells you just about everything you've always wanted to know about the Beatles' Japanese non-bootleg releases on vinyl. Audiophiles have known for years about the outstanding sound quality of the Japanese releases. Recently, however, a growing number of mainstream Beatles collectors around the world have also become fascinated with these unique and strikingly beautiful historical artifacts of Beatlemania. Small changes in demand for items with high scarcity indexes (as specified in the book) can dramatically affect prices. So don't wait! Get the Guide today and learn the facts you need to know.
