**Mark Lewisohn : The Beatles Live: The Ultimate Reference Book** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Beatles Live: The Ultimate Reference Book:

0 of 0 people found the following review helpful. Five StarsBy N. RileyFantastic book! A must-have for Beatlefans. Comes with an interview record from 1962!1 of 6 people found the following review helpful. Information overload?By cynicalgirlI do like this book. BUT a little info can go a long way. I wish that it had not been quite as detailed as odd as that may sound because after a while your head cannot absorb any more! Seriously it is a good book just not quite as good as I was led to believe. And don't worry if you didn't get the "record"--it is one of those flimsy things that I haven't seen since an old DOWNBEAT (I think it was DOWNBEAT) in the 1960's!12 of 12 people found the following review helpful. A Timeline of Live Beatle MagicBy Oky,I brought this book and read it from cover to cover a number of years back and I continually pick it up to check the facts. The book has a wealth of information about the live performances of the Beatles from 1957 to the last live performance on the 29th August 1966 at The Candlestick Park San Francisco. It details what songs were played and who sang the lead vocal. A breif history of the period under review. Remember Beatlemaina in Adelaide back in 1964 where more than 300,000 fans lined the streets to see their heros. Its all descibed here. This is a must have book and despite being able to have some of this book reproduced in Mark Lewisohn's The Complete Beatles Chronicles, you still need this book. Its worth the search for it.Okay, Adelaide, Australia Dec 2000
