Jim Gallagher : The Beatles (Popular Rock Superstars of Yesterday and Today) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Beatles (Popular Rock Superstars of Yesterday and Today):

0 of 0 people found the following review helpful. And May I Introduce to You...By BeatleBangs1964...the one and greatest band, the Beatles! This well written book is ideal for the younger Beatle fan, the pre-tween to tween reader. This author compliments his young readers' intelligence and takes them on a Magical Mystery Tour through the Long Winding Roads of each Beatle's life. Readers not only spend A Day in the Life of each Beatle, but learn what influenced the Beatles and their art. Readers will take a madcap rush through 1964 when the Beatles came to America; celebrate at the famous August 15, 1965 Shea Stadium Concert and scream over Beatle television performances and feel some bittersweet pangs when the group disbanded in 1970. Beatlemania is well explained (and is certainly understandable!) thanks to the skilled writing of this author. This book gets a hearty YEAH, YEAH, YEAH

endorsement! I love it!
