The dust covers vary so look around to get your favorite. The hard cover behind the dust jacket is the same picture, which I was happy to see. On this cover, it was Paul's 23rd birthday. There's something very special about black, white, sepia and gray tones. They create depth with almost a 3-D look.This makes a beautiful coffee table book and it joins my other favorite which is The Beatles Anthology. It's interesting to see Paul's baby face look before he matured. If you're interested in what happened and when, there are chronology pages throughout the book.Weight: 3 lb. 12 oz. , 9" W X 11" L X 1.25" D. and 384 pages. The spine is so perfect because it's semi-loose so you can fully open the book and lay it flat to enjoy the pictures. The 600 pictures are archived from the Daily Mail. There are 200 pictures from negatives that were never previously printed so they're published in this book for the first

time. This is a fabulous picture book and I highly recommend it. 0 of 0 people found the following review helpful. Five Stars

By Gary R. De Witt Great photos! Belongs on every Beatles fan's coffee table.

This comprehensive 448-page book about the world's most famous band, with more than 1000 illustrations, is an extraordinary feast of superb photographs, original memorabilia, newspaper features and a detailed chronology. It includes more than 900 photographs from one of the finest collections of photographs of the Beatles in the world: the archives of the "Daily Mail" and "London Evening Standard". Many are seen here for the first time. They tell the story of the Beatles in chronological order. It also includes a detailed chronology covering the day-to-day lives of the Beatles including performances, record releases and tours. Running through the book is the story of the Beatles told by author Tim Hill who has written five best-selling books on the Beatles and had access to much new archive material. The Beatles made unprecedented media history through the 60s as they transcended pop icon status to influence a generation. Included throughout the book are more than 100 newspaper articles and interviews, some facsimile and some transcribed, which give a first-hand flavour of Beatlemania including the fascinating facsimile of the newspaper that Lennon was reading when he wrote the iconic 'A Day in the Life' (I read the news today oh boy...). It includes more than 200 pieces of rare memorabilia are reproduced in original form throughout, giving a flavour of the 1960s.
