Christoph Scheerer : The Blackmar-Deimer Gambit: A Modern Guide To A Fascinating Chess Opening (Everyman Chess) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Blackmar-Deimer Gambit: A Modern Guide To A Fascinating Chess Opening (Everyman Chess):

12 of 13 people found the following review helpful. Love it or hate it..... The BDG isn't for wimps!By Jerome LewisI

really bought this book to find a gambit line to supplement my love for d4 openings and got more than I bargained for in a gambit line. The Blackmar-Deimer Gambit is not for wimps! Most players will either love or hate this gambit....from both sides of the board! This is a THICK book from Everyman and detailed with 13 chapters covering the author's recommended/alternative lines for both offense and defense. There is also plenty to digest if Black decides against accepting the offered pawn. Many choices and lines to play, as only a true gambit offers! Overall book is great quality/strong binding with this layout: the opening moves are given in BOLD font with sub-variations as necessary distinguished by a), b), c) etc....the key moves are delineated by bold font in gray boxes then BOLD font with sub-variations as stated before. You get the most thorough information at a decent price for a paperback...If you want to study/play this gambit, this is the perfect book for you. I can't say anymore....2 of 3 people found the following review helpful. Very objective and comprehensiveBy MatchchessFantastic book for those interested in the BDG. Covers accepted and declined. Wish they would make a PGN formatted version.0 of 1 people found the following review helpful. Five StarsBy C.CGreat resource

Do you like setting your opponent problems from the very first move? And are you happy to roll the dice and take some risks? Then enter the intriguing world of the Blackmar-Diemer Gambit! This title takes a modern-day look at the gambit. It examines in detail the promising lines for White and the most resilient defences for Black.

From the Back CoverDo you like setting your opponent problems from the very first move? Are you happy to roll the dice and take some risks? Then enter the intriguing world of the Blackmar-Diemer Gambit!The Blackmar-Diemer Gambit is a dangerous attacking opening which has amassed a cult following a loyal band of supporters like no other in chess. White sacrifices a pawn in return for a strong initiative which tests Black's defensive capabilities to the limit. Some experts have questioned its objective soundness but there's no doubting its effectiveness over the board, where pressure and a ticking clock often mean it's impossible to find the right defence.In this book, Christoph Scheerer takes a modern-day look at the gambit. He examines in detail the most promising lines for White and the most resilient defences for Black, discusses the key ideas for both sides and highlights the many traps awaiting the unsuspecting player.Up-to-date coverage of the key lines
