Blueprint LSAT Preparation, Trent Teti, Jodi Teti, Matthew Riley : The Blueprint for LSAT Logic Games before purchasing it in order to gage whether or not it would be worth my time, and all praised The Blueprint for LSAT Logic Games:

Good book, poor Kindle versionBy Jason FrancisThe content itself is pretty good and it's written in an engaging manner.The Kindle version leaves something to be desired though, with a wealth of formatting and typographical errors, and in at least one case the questions and answers aren't even paired up correctly.0 of 0 people found the following review helpful. a great quality product written by a knowledgeable authorBy Everly WatsonThis book is gold! But you definitely need to have some basic knowledge of how the LSAT works before you begin on this book. It is a little difficult at some places and there are not as many practice problems

as I hoped there would be. Overall, a great quality product written by a knowledgeable author. 0 of 0 people found the following review helpful. Clear Strategies Great Explanations By AlexBlueprint was by far my favorite LSAT prep. Video explanations for this book are great. Strategies are clear and easy to apply. Presentation of the material is about as interesting as you can make it. I made huge improvements on my speed on the logic games section of the LSAT. I went from finishing about 2 games to finishing the entire section. Definitely recommend.

The Blueprint for LSAT Logic Games book teaches students how to tackle the difficult Logic Games section of the LSAT. Utilizing Blueprint Building Blocks, readers learn how to identify game types, set up diagrams, and efficiently address questions from the best LSAT prep company in the industry. Students implement these methods by tackling 35 real Logic Games, taken from the most recent LSATs available. Because the LSAT has gotten more difficult over the years, it's important that students use the most up-to-date materials to prepare. The Blueprint for LSAT Logic Games uses the same brilliant (and hilarious) techniques taught in Blueprint's live and online LSAT prep courses. Each LSAT prep book comes with a free Blueprint student account, which allows readers to log into Blueprint's website and watch HD video explanations for every Logic Game in the book. The video subscription lasts for one year from the date of purchase and the videos are the same as those used in the Blueprint LSAT Prep courses and feature company founder Matt Riley, who has taught thousands of LSAT students and has never missed a Logic Game question on a real LSAT. Whether you're self-studying and looking for the best LSAT prep resources available, or you've already taken a course and are looking to master Analytical Reasoning and boost your LSAT score, The Blueprint for LSAT Logic Games is a true Logic Games bible.

Blueprint, long known as reputable company providing high quality LSAT prep courses, has released a huge book on how to do LSAT games and it is glorious. The easy to understand material is written with plenty of humor to make it go down easily and contains ample drills and practice questions. Carefully crafted to teach you step by step without any big jumps, this is a first rate, comprehensive option for those learning LSAT logic games through self-study. -- LawSchooli.com All the tough training you need in formal logic, presented in an entertaining and (dare I say) painless way. --Anna Ivey, former Dean of Admissions at the University of Chicago Law School Combines irreverent humor and deep mastery of the test, making it indispensable for aspiring JDs. I love this book. --Brian Dalton, Above The Law/Breaking Media About the Author In January of 2005, under the light of a shooting star, three humble teachers oversaw the birth of Blueprint LSAT Preparation, a new kind of test prep company. Co-founders Jodi Teti, Trent Teti, and Matt Riley were possessed by the strong belief that those who pay for an LSAT class shouldn't be subjected to material and methods that test not only their LSAT knowledge, but their very will to live. The LSAT is a nefarious test, designed by those who think that a sentence is not complete until it contains at least two double-negatives. At Blueprint, we make every effort to take this material and mold it into something both a) understandable and b) gut-bustingly funny. Our instructors are the finest and funniest that money (and the enticement of unlimited free pencils) can buy. Every year, we go through our curriculum with a fine-toothed comb, looking to make it both up-to-date and more enjoyable to learn. We're not sure why we use the comb, but hey, tradition. We offer live and online LSAT prep courses throughout the United States, as well as private tutoring and law school application consulting, and our classroom students average an industry-leading 11-point increase on their LSAT practice exams.
