John Lennon, Paul McCartney, Beatles : The Complete Beatles Lyrics before purchasing it in order to gage whether or not it would be worth my time, and all praised The Complete Beatles Lyrics:

0 of 0 people found the following review helpful. Fantastic!By CustomerAnything to do with the Beatles is good with me! I appreciate having a book with all of the lyrics to their songs! Thanks for sharing this book with me! Seller is fantastic and highly recommended!7 of 7 people found the following review helpful. The Incomplete-Muddled Beatles lyricsBy Adrien CadouxI was pretty much born listening to the Beatles, I find I can sing along with almost every song the Beatles ever produced, I even own this book, why wouldn't I? I've had it for quite a while and every so often I

decided to pull it out to double check the words to a song. I end up spending the next few minutes drawing arrows from one part to another, now they may have fixed this, but from the edition I have practically every song is out of order, and some are flat out missing lines. It'd be as if I just went and decided to write all the lyrics I could remember and not deciding to double check and not bothering to even listen to the songs. I just wonder what on earth happened and I hope they find the body of the editor someday, poor guy, died right before he could get to this... too bad he put it in the "out" pile. Oh, well, don't even think of buying it unless you like to draw arrows in books! 17 of 17 people found the following review helpful. Hire a proofreader

By Dan TI bought this book about ten years ago from England. I listened to each Beatles' song and read the book as I listened. There are hundreds of mistakes throughout the book and the songs are not complete. Sometimes stanzas to a song are simply left out or the wrong words are used. There are far better books than this one. Don't waste your money on a book that you have to go over with a fine toothed comb and aren't sure of its accuracy.
