A bit infuriating...By CustomerToo often in this book, there isn't sufficient explanation of strategy in spite of it's supposedly being a teaching book.Example: While listing scenarios, the answers say No comment if standard or routine play. Well, perhaps you should explain standard or routine play? After all, this book is supposed to TEACH exactly that! Frustrating!Beginners will get some value, but not as much as I would have hoped... Just too much left unsaid, in my opinion....0 of 0 people found the following review helpful. Not
