Parragon Books : The Crossword Collection (Spiral Crosswords) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Crossword Collection (Spiral Crosswords):

By Dani Arteri I like this book because it's not super difficult...I like to actually be able to finish my crossword puzzles without having to look at the answers! I'm about 20 puzzles in, and I haven't had to look for

help once. I'd agree with other reviewers that they are a bit on the easier side, but again, I like that because it's not frustrating to me--just something to pass the time and to feel accomplished about when I'm done. My main complaint is that a handful of clues/words are repeated from puzzle to puzzle....often. I can't even tell you how many times I've filled in boxes from puzzle to puzzle about Alan Alda of M*A*S*H!!! There are others with excessive repeats as well. Overall, if you want crosswords to pass the time (if you're of average crossword ability....experts might be bored with this) and you actually like to be able to finish them, this is a book for you! 0 of 0 people found the following review helpful.
