By Darien Hardin
If you like Elder Scrolls lore then this is a MUST read! It contains all the stories from the game and I have read most of them so far. Very handy for reading that last book in a series from the game that you just can't find anywhere.

In-universe texts that take fans deep into the lore of The Elder Scrolls Online, featuring in-game texts on factions, landscapes, creatures, heroes, and the villainous forces of Molag Bal. For the first time in print, step into the fantasy world of The Elder Scrolls Online. Tales of Tamriel - Vol. II: The Lore takes readers on adventure throughout the war-torn landscapes and battlefields of Tamriel, featuring a horde of in-game texts and exclusive artwork. Lavishly bound and produced, this series of books is the definitive guide to lore from the Elder Scrolls Online.

There's a lot of lore in Bethesda's Skyrim that can be read in the seemingly hundreds of books you can find in-game. They tell you everything from origins of magic spells to the histories of the various lands and races within Tamriel. - Aint it Cool gift guide
