Before I got these I was wondering if they would really do justice to the books from my beloved Skyrim, especially at this price. Boy howdy. These books are gorgeous. They're thoughtfully done, with a textured hard cover and metallic text on the front and a spine, making it look and feel special. The pages are designed to look like parchment in an old, slightly worn book,

and the inside of the pages near the binding is printed to appear to be worn and loose (it's just designed to look loose-the binding is perfect). The book consists of 231 pages of text from the in-game books on the subjects of Races (eg. Birds Arise!), Creatures and Beasts (eg. Cats of Skyrim), Warfare (eg. Killing Before You're Killed), and Factions (eg. The Nightengales: Fact or Fiction?). The stories are interspersed with beautiful artwork and maps on nearly every page. Get this book!

By CustomerA nice collection of numerous in-game books from Skyrim (The Elder Scrolls V). They are just as entertaining in print as they are in the game, and easier to read.
