The puzzles appear to be hand-created, unlike the randomly created junk found in some other books. In many difficult puzzles, the solver is reduced to penciling in possibles fairly early on, then searching through lots of tiny numbers for clues. In this book that's rarely necessary (and least in Levels 1-4, which is as far as I've gotten.) The book has a nice small format, and the paper is very white and of excellent quality. All in all, highly satisfactory!0 of 0 people found the following review helpful. Challenging!!!!By Iris M. Escribano NievesThis is truly

and advance sudoku. Finally something worth buying, if you are the kind of person that loves doing this on a daily basis, and can't find something challenging enough anymore. This is the one!!!!0 of 0 people found the following review helpful. ChallengeBy California DougSince I like medium difficulty sudoku the best, this book turned out to be a challenge for me, but it has been a good step for increasing my solving skills. These are not as difficult as Shortz's "hard" puzzles, now just right for me.

Another 201 Puzzles, 5 Seriously Advanced Levels of Difficulty! The incredible popularity of Su Doku shows no sign of slowing and for every fan of the fascinating number game, The Essential Book of Su Doku Volume 3: Advanced will provide further hours of captivating fun -- with the most challenging puzzles yet. The super-difficult puzzles created especially for this book will tax even the most agile Su Doku brains and leave people begging for mercy. Fiendishly devised for maximum fun, these puzzles are certain to take your Su Doku skills to new heights.
