Not Clear EnoughBy gadawsonI approach bridge as a total novice. I was looking for a book that could explain the game to me. This book does a very poor job of explaining the game to a novice. The writer continuously makes reference to material that is to come later in the book. But that material is used in the earlier instructions before it is even explained.I consider myself to be a good learner. Bridge is complicated but I'm sure once I learn it I can do a much better job of explaining it to others. If you know a little about bridge already then perhaps this book would be good for you but if you're completely new to the game look elsewhere for instructions.I will buy the books for Dummies and Idiots now and hope they do a better job.0 of 0 people found the following review helpful. Great Book!By KKThis book was recommended to me by a Life Master bridge player, and it is wonderful information. I highly recommend it for beginners, or like me, returning to bridge after a long gap in

playing.
