If I don't find activities for her, she just sits in a chair. Bought this book and it's perfect. It's easy enough that she can come up with some of the answers on her own - which gives her a tremendous sense of accomplishment - and it's a fun thing for the two of us to do together. She just loves doing the puzzles and will sit on her own with the book and fill in what she can too. I'll be buying more of these. Thank you, for this!!11 of 11 people found the following review helpful. Not good for seniorsBy SUSANI purchased this large format

book for my elderly parents who enjoy crossword puzzles. I hoped the large format would help them work the puzzles, and it did. However, they found the puzzle clues to be so linked to current pop culture, or maddeningly unclear that they gave up in frustration. These are two sharp, well-read people, who just don't read or watch a lot of TV or listen to rock music. 1 of 1 people found the following review helpful. Not What Expected By Teena Although I'm not Sunday Times Crossword expert, I do like a challenge. This book offered none as its name "EASY" applied.....appeared to be written for children. Most of the puzzles were filled completely with 3 to 4 letter words with an occasional word thrown in with more letters involved in the answer. I would not have minded had the clues been more challenging, but found it to be not what I expected. I had ordered several other "although spiral bound" books by other authors, and there were a complete mix of words of all sizes as expected. I would have returned this book, had it not been for the complication of having to print a return label and take back to a UPS drop off center. My email account is unavailable at this time and could not get the label, nor had the patience to try and deal with all it would take to send a \$12.00 book back.

With clues ranging from famous people and movies to fun word play, this work contains over 150 crossword puzzles. It is suitable for beginners and experienced puzzle lovers alike.
