Also if you would like a glimpse into how they came to Bayonetta's design. This applies for various other characters and enemies but Bayonetta is the star and has the most coverage. It's great reading the comments from the artists and other team members about the process. I would love for there to be longer and more in depth especially for angel and demon designs, but what is here is already amazing. 1 of 1 people found the following review helpful. Bayonetta Art Book Review By Tim Legdeur I got this art book a few

weeks ago and i'm very happy that i bought it. It contains lots of art work that you won't find anywhere else. Everything found in the 1st Bayonetta game is shown in this book. From characters to items to even accesories. The comments posted by the staff at the end of the book are also very nice to read. All in all a great book for anyone who loves Bayonetta and wants to have a more detailed look into the origins of her 1st game.4 of 4 people found the following review helpful. great giftBy mardelle813I purchased this for my daughter for her birthday because she is a huge fan of the game and is an art major. I sat and looked at the entire book with her and was amazed at the details. The art is beautiful in itself, and it explains in detail about the characters,weapons, and settings in the game. She absolutely loves it. Money well spent if your a fan or know one.

A member of an ancient witch clan and possessing powers beyond the comprehension of mere mortals, Bayonetta faces-off against countless angelic enemies, many reaching epic proportions, in a game of 100% pure, unadulterated, all-out action. The Eyes of Bayonetta collects the stylish artwork behind this cinematic action game, featuring character sketches, CG models, monster, weapon, and location designs, and creator commentary. Also included is an exclusive hour-long DVD interview with the games creators, taking you behind the scenes of Bayonettas creation!
